[Tower Std letter May 2017 draft 05-17-17.docx](#)

John,

We are proposing alternative language to highlight the need to begin work on the interim and final remedial actions. We put it in a new paragraph separate from the limitations of the model paragraph.

Please consider this way of addressing the matter. Please call with any questions or concerns.

**Subject:** FW: Tower Standard Draft Letter

John,

EPA has reviewed the draft letter and we have the following comments:

1) We recommend that LDF be referred to as Lac du Flambeau Band of Lake Superior Chippewa throughout the letter; 2) we want to be sure that the tribe is copied on the letter and note that Larry is cc'd; and 3) we did see some typos but trust those will be found and corrected. In addition to these comments, please see the specific recommended modifications to the letter in the attachment.

Thank you for the opportunity to review this draft. We appreciate it. Please let us know when you believe this will be sent out. We anticipate making a phone call to LDF before this is released.

Please let me know if you have any questions.
